MEMO NO.: 1673 -30-WBPCB-G(86)/2000

DATE: 08-09-2008

WITHDRAWAL OF DIRECTION FOR SUSPENSION OF OPERATION

In due consideration of the submission of the industry that they have replaced formaldehyde (the causative agent, responsible for emanation of pungent gases) with copper sulphate as preservative chemical for manufacturing glue and the appeal dated 2nd September, 2008 for withdrawal of direction for stopping the operation, **M/S. ADHESIVE AND CHEMICAL INDUSTRIES**, located at 279, Rai Bahadur Road, P. O. – New Alipore, Kolkata – 700 053 is hereby allowed to operate up to 15-10-2008 for enabling the Board to monitor the impact of the change in raw material of manufacturing process. The earlier order vide Memo NO.1581-30-WBPCB-G(86)/2000 dated 01-09-2008 is hereby kept suspended for the period mentioned above with the following conditions:

1. That the unit will be monitored immediately to assess the problem related to the emanation of pungent gases from the process as was observed earlier, for taking further decision in the matter.
2. In case the problem persists, the order for suspension will be immediately withdrawn.
3. Effluent, if any should be properly treated before being discharged to a free flowing drain.

This order is issued in exercise of the powers conferred under Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981 and Environment (Protection) Act, 1986 and Rules made thereunder after being approved by the Competent Authority.

Order
