To

M/s. Ganguly Enterprise

2, Motilal Colony,

P. O. – Rajbati Colony

KOLKATA – 700 081

Sir,

This is to inform you that your unit was inspected by the Board on 23-03-2009 when it was observed that some more steps should be taken to reduce the noise level during various operations of your unit. Hence, you are hereby directed to following steps within thirty (30) days from the date of issuance of this direction to reduce the noise level further.

1. Porous absorptive materials should also be used in the remaining portion of eastern side wall as well as small openings.
2. At least one inch (1”) thick rubber mat should be placed on the entire floor where shearing and cutting operation are done.
3. A small door made with porous absorptive material should be put in the front gate at the time of noise operation in the shop floor.

In case of noncompliance of the above directions within the stipulated time period, the Board will have to take stricter regulatory action without any further reference in the matter.

You are also directed to submit a self-compliance report to the State Board immediately on completion of the thirty days time.

Yours faithfully,

Sd/-

(Dr. D. Chakraborty)
