Ref. : Technical Hearing conducted on 30-01-2009

Enclosed please find a copy of the minutes of the technical hearing of your unit conducted on 31-01-2009 at the Head Office of the Board. You are hereby directed not to operate the cupola furnace pending installation of adequately designed emission control system.

This direction is issued on the basis of the observation made during inspection that you are operating the cupola furnaces without installing the emission control system, resulting in emission of black smoke from the furnaces.

In case of noncompliance of the direction, the Board may initiate stricter regulatory action including closure of your unit without any further reference in the matter.

Yours faithfully,

Sd/-

(Dr. D. Chakraborty)

Chief Scientist & Head – Technical Cell

West Bengal Pollution Control Board
